

PULSEWORKS

Innovation On Demand

VR Transporter

The Pulseworks VR Transporter immerses your patrons in state-of-the-art VR technology and lets them become participants in whole new worlds! The stunning new virtual reality headsets let patrons see vivid and immersive detail in every direction they look. Coupled with precision-controlled dynamic motion from our VR Transporter motion platform and crystal-clear high-definition audio headphones, this innovative experience will take your guests on wondrous adventures as never before!

Pulseworks custom-creates both exciting live action and 3D-modeled content. From undersea to outer space, our library of VR experiences provide many new worlds and mission-enriching topics to choose from. Find out how Pulseworks can partner with your attraction today!
